

INDICATION

Used to classifiy and provide prognosis of ocular chemical injuries based on corneal involvement and limbal ischemia

INTERPRETATION	
GRADE	PROGNOSIS
1	Good
2	Good
3	Guarded
4	Poor
CALCULATION	

Grade based on combination of Cornea and Conjunctiva / Limbus findings

GRADE	CORNEA
1	Epithelial damage
2	Haze and Iris detail visible
3	Total epithelial loss / Stromal haze and Iris detail obscured
4	Opaque and Iris / Pupil obscured

GRADE	CONJUNCTIVA / LIMBUS
1	No limbal ischaemia
2	<33% limbal ischaemia
3	33-50% limbal ischaemia
4	>50% limbal ischaemia
